

Our assisted living community offers six different styles of one and two bedroom apartments. Private, spacious, and being home are some of the words that our residents use when describing their apartments, life and their lifestyle at Keelson Harbour. Residents bring their own furniture and decorate the apartment to reflect their own personal tastes. We believe that anyone who becomes part of our community is home, and we strive to make each resident as comfortable in their new surroundings as possible.

Throughout your apartment you'll notice the design of the apartment that makes your life easier...lever handle door hardware, wider halls and doorways, wall-to-wall carpeting, single handle faucets, electrical outlets placed high for easy reach, high lighting level, raised television and telephone jacks. Now enter the bathroom and notice even more special touches...grab bars, walk-in showers higher height toilets. All of these and more to make your life at Keelson Harbour more enjoyable!
