Welcome to our Home, LLC believes that elderly persons have the right to a high quality of life. Our mission is to provide catered living services to persons who find it difficult or impossible to continue living in their own home, yet who may not require all the services of a nursing home. In each project, it is our intention to create a warm, caring, family type atmosphere where each person is valued as an individual.

Established in 1994 as a board and lodge provider, Welcome to our Home today brings together the development of assisted living projects and the ability to successfully provide assisted living and independent living to the elderly. Originally started as a board and lodging owner and operator, it has developed into a complete project development company. It may provide any number of services from initial research, project development, construction, financing and management. The company prides itself on its turnkey approach to Catered

Living Project Development where it has developed its reputation for quickly bringing new projects to fruition on time and on budget.

Welcome to our Home is recognized as an emerging regional leader in the development of catered living facilities and programs. It is one of the few organizations in the upper Midwest who has planned projects, constructed buildings, implemented programs, and managed facilities to success. Our philosophy places the needs of residents first, the requirement to provide a healthy work environment for its employees next, and finally, an adequate rate of return to investors.
